

Security Construction Services, Inc. Wins Grant from The Massachusetts Department of Industrial Accidents Office of Safety

April 2010 - Security Construction Services has been awarded The Department of Industrial Accidents' (DIA) Office of Safety (OS) Occupational Safety and Health Education and Training Program Grant. The DIA OS is the only State agency in the Commonwealth of Massachusetts whose primary function is to provide financial assistance for the prevention of occupational injury, illness and death in the workplace.

Each year, the DIA issues a Request for Response (RFR) for the Office of Safety's "Occupational Safety and Health Education and Training Program". The objective of this program is to promote safety and healthy conditions in the workplace by awarding state funds to eligible applicants who submit responses designed to provide and improve safety education and training in Occupational Safety and Health to employers/employees within the Commonwealth covered by the Massachusetts Workers' Compensation Law (MGL c. 152).

Security Construction Services will be teaming with Safety Trainers to allocate the funds received from the state on deciding the best way to invest it. The prevention of occupational injury and illness is in everyone's best interest. The Safety Training Grant provides an opportunity for MA employers covered by the MA Workers' Compensation Law to provide proactive strategies to keep their employees safe at work.

Janet Ceddia, President of Security Construction Services gladly accepts this award as she states "On behalf of Security Construction Services, I am thrilled to have been awarded this funding to cover our safety training needs and related costs. The money will go a long way in assisting us with our Safety Program and plans to maintain the highest levels of safety and quality assurance throughout our team. We are also pleased to be working with Safety Trainers to ensure the training we provide to our employees is of superior quality. Thank you for your support". Security Construction's Grant is funded from October 1, 2010-June 30, 2011.

About Security Construction Services, Inc.:

Incorporated in March of 2002, Security Construction Services acquired Security Fence Co., a company with 90 years of experience in fabricating and installing all styles of fencing. Building on that rich history, Security Construction Services developed comparable capabilities in commercial and government contracting with expertise in perimeter security, anti-terrorist fencing, intrusion barriers, and access control. Its current capabilities range include: interior/exterior building renovations; roadway construction; fire suppression/fire alarm installs; and service & maintenance contracts. In 2008, the company was honored "Prime Contractor of the Year"! In 2009, the company's work earned a follow-on nomination for its owners as "Small Business Person of the Year". In 2010 the company ranked 4th out of 50 for the "Pacesetter of the Year" award from the Boston Business Journal.

About Safety Trainers:

Safety Trainers provides customized services, design, consulting, equipment, resources and training for Health & Safety, Regulatory Compliance, Emergency Preparedness, Disaster Recovery, OSHA and MSHA for all industries. They have been serving the New England area since 1998, building relationships and providing outstanding customer service.
