

About Security Fence Co.

Since 1914, Security Fence Company has been a leader in the design, manufacture, and installation of distinctive quality fences all across New England.

Security Fence Co. will install virtually any fence in virtually any situation. With multiple in-house crews and a network of subcontractor partners, no job is too small or too large. We work hard to be the "go-to" contractor to all of our commercial, Industrial and Government customers. We work on your timeline, not our own.

At Security Fence Company, we are guided by the highest standards of quality and service. As such, all employees are OSHA certified.

With fully outfitted wood, vinyl, and metal fabrication shops, we are unique in our ability to custom design all of our products and ensure they are built to your exact specifications. The prevailing attitude in our shop is clear: "We Can Build Anything!"

A History of Family Tradition

We are a family-owned business and have been for over 90 years. In that time, we have installed over 10 million feet of our own security fences. As one of the oldest fence companies in the country, each new fence that we install joins a rich history; each new customer becomes part of the Security Fence Co. extended family.

SECURITY FENCE CO.

800-734-8805

Security Fence Co. has distinguished itself as a leading vendor of choice to the rapidly expanding field of perimeter security, anti-terrorist fencing and intrusion barriers. We succeed in achieving our high standards because we have a top-notch team of craftsman and installers with over 130 years

of collective experience in the fence industry, and a dedicated cadre of sales people and office administrators committed to understanding how best to meet your needs.

Services

Design Consultation

Security Fence Co. estimators approach their work as a design consultant to your project. One of our estimators/consultants will walk the

property, take measurements, discuss options, offer drawings, and develop a detailed proposal for your approval. When you need to discuss recommendations for sizes, gauges and hardware, call Security Fence Co. before specifications are written and if work needs to adhere to tight design parameters, SFC's team will meet or exceed specs.

Installations

Security Fence Co. prides itself on being able to install any type of fence or gate in any situation. We have experienced and

well trained crews with over 90 years of collective fence knowledge. Our installers are in house employees not sub-contractors. As such, our crews operate with a strong sense of pride in the quality of their work, rather than on how fast they can move to the next job. No job is too large or too small. We operate year-round to accommodate your schedule not ours.

Repair

Security Fence Co. crews are also available to conduct repairs and maintenance checks to fences and gates. Once installed, fences and

gates need to be maintained to ensure a long life. To accommodate repair work and ensure that it doesn't get brushed aside by larger projects, we work hard to balance our crews' schedules between new installs and repairs.

"Thank you for the wonderful job your company did for our organization. We have received very positive feedback from players, parents, and coaches since the fences were complete"

- Hopkinton Youth Soccer

"Just a note to tell you that your crew did a good job on the installation of the fence at our house in Waltham. They were courteous, on time and very professional. They also kept us informed all the time which was great. Thank you!"

-Waltham, MA

100% Satisfaction Guaranteed

At SFC We take great pride in our work. If you are not satisfied, neither are we. We work tirelessly to ensure that we deliver on our promises. Our many repeat customers are testament to that commitment. In addition, we warranty our installations for one year and extend manufacturer warranties as applicable.

Service with Integrity Since 1914
