RE: Security Construction Services

To Whom It May Concern:

It is with great honor and confidence that I take this opportunity to show my support and enthusiasm for Security Construction Services' nomination for Massachusetts Small Business/Business Person of the year 2009.

I have known Janet Ceddia for the past several years, and from the very beginning, this acquaintance has been both a privilege and a pleasure. Janet has been incredibly influential in her work, and her successful company, extraordinary commitment, and positive energy were some of the important factors that inspired me to start my own business over a year ago. She confidently provided my new company with one of our very first projects- our largest project to date- and has undeniably helped my business to grow.

Janet and her organization have been remarkably congenial and enjoyable to work with. They have provided my company with numerous business opportunities, and over the past year I have been included in many of her projects that required flooring. Security Construction Services has been a strategic and favorable partner for my company "Carpet Services". Both Janet and her project managers have always demonstrated justice and integrity, and, in my opinion, they are fervently committed to supplying the Government with quality products and services.

Without hesitation I would recommend both Janet and Security Construction Services to any government agency or non-government facility for any project services that they may require. Janet's fair and commendable business practices guarantee success and satisfaction for any job that her company completes.

Sincerely,

Brett Marinaccio
President
